Single Subject Intern Program

Interns are on-the-job trainees who are taking classes as they teach. Intern teaching occurs throughout the program rather than at the end of the program as in the case of traditional student teaching. Interns receive support from a University Supervisor and peer coach and are required to attend university seminars and professional development activities required by their school district. To participate in the intern program, candidates must have an employment contract with a local school district and meet CSUB's admission and Single Subject program requirements (please see brochure for details).
